Territory Women celebrate International Women’s Day

Today is International Women’s Day and Territorians everywhere will celebrate the important role of women to the Northern Territory.

Minister for Women’s Policy, Malarndirri McCarthy said it was important that all Territorians get involved in this global celebration.

“There is a variety of fantastic events happening across the NT, and I encourage all women to get involved,” said Ms McCarthy.

“The theme for the 2010 International Women’s Day is ‘Equal Rights, Equal opportunity: Progress for All’ and the Territory Government is committed to achieving this for Territorian women.”

“Events celebrating the achievements of all women are happening right across the Territory from the Top End to Central Australia.

“The Territory Government provides grants to local groups and organisations for events such as conferences, festivals, forums and functions that encourage women to participate in and celebrate International Women's Day.”

All Territorians are encouraged to show their support for the contribution that women make to the Northern Territory by attending events in celebration of International Women’s Day.

To find an event happening in your area, please see the Office of Women’s Policy website at www.women.nt.gov.au.
