NEW HIGH SCHOOL IN RURAL AREA SHOULD BE A PRIORITY

Gerry Wood, the Independent Member for Nelson, says the Government should be building a new high school at Weddell in the rural area.

Gerry says that Taminmin High School is now full and unless the Government doesn’t start on a new high school many rural kids will have to be bussed into Darwin and Palmerston schools.

The Chief Minister might be singing the praises of his Government’s educational capital works budget but he needs to make sure rural kids don’t miss out.

The Government is happy to upgrade many northern suburbs schools but older schools like Howard Springs Primary desperately need a major upgrade but unfortunately they are not within the Berrimah Line safety zone.
