CLP Remains Divided Over Climate Change

Minister for Climate Change Karl Hampton today welcomed the CLP’s entry into the climate change debate.

“Climate change is one of the most pressing issues facing our generation,” Mr Hampton said.

“The CLP must say if it supports a national Emissions Trading Scheme.

“Until Opposition Leader Terry Mills makes his position clear on an ETS their climate change policy is only for show.

“Mr Mills needs to tell Nigel Scullion to stop being a climate change sceptic and support a national ETS.”
