Extreme care

IS YOUR garden looking a little worse for wear already?

Maybe slightly overgrown or just in need of some attention?

The wet season is upon us, which means things are growing a little quicker than expected. Over the course of the wet season, things get out of control.

Jamie O'Neill, owner/operator of Xtreme Garden Care, explains that trees with falling branches and even heavy palm frond can be dangerous — particularly for children.

As Jamie explains the dangers, a 1.7 tonne royal palm tree is being lifted — by a crane — over the house behind him and fed directly into a heavy duty mulcher.

"We have the big machinery to handle jobs

like this one," he said. "The fronds from palms, being right next to the swimming pool, could easily fall and knock a child out."

As well as professional tree services, Xtreme Garden Care provide landscaping services, trimming and pruning throughout the garden and stump grinding.

"With three trucks available, we can work around you," Jamie said.

Whatever the job, Xtreme Garden Care has the right equipment, the right advice and the right attitude to achieve your aim.

Xtreme Garden Care has a full guarantee on all works, and can also provides crane hire and a Dingo hire for trenching and plant holes.

For all garden needs, call Jamie at Xtreme Garden Care on 0407 869 860.

Xtreme Garden Care has big machinery to handle big jobs
