MEDIA RELEASE

A COMMITMENT ON THE ORD

Tuesday August 07th, 2012

August 7, 2012

A Country Liberals Government will work with the Western Australian and Federal governments to capitalise on Stage 2 of the Ord River Irrigation Scheme.

“Western Australia has already advanced this important initiative despite a lack of co-operation from Territory Labor,” Mr Mills said.

“The Country Liberals will immediately move to enter into negotiations with them and the Federal Government to start the Northern Territory sector of this nationally important initiative.

“In preparation for the Ord and as part of progressing our plan for a 3-hub economy, the Country Liberals commit to improving our transport links and review activity at East Arm Port to ensure maximum growth and efficiency.”
