Leader of the Opposition, Delia Lawrie, today announced her Shadow Cabinet.

“With as strong legacy in Government, we are a united team looking forward to working hard,” Ms Lawrie said.

“All Shadow Ministers will immediately be getting out and working hard and meeting people while building expertise in their portfolio areas.

Paul Henderson will act as a mentor across all members of Shadow Cabinet.

“Terry Mills has promised to be accountable, and Michael Gunner will be helping him as Shadow Minister for Government Accountability,” Ms Lawrie said.

“The divisions within the Government are already evident, with Terry Mills proving unable to announce a Cabinet until next week due to factional infighting.

“Promising Kezia Purick would be his deputy was only one of the many cheques he wrote that he is now unable to cash.

“His commitment to cut the number of ministers to 8 adds to the complexity of keeping all the factions within his party happy.”

A full list of shadow portfolios attached.
