Gerry Wood, Independent Member for Nelson, says a great example of local people and businesses getting together to build a skateboard/BMX track will be on display this Australia Day when the new facility will be officially opened.

Gerry says that without the support of the community and businesses this facility would have never happened. The driving force behind all this was Mark Brustolin from Brustolin Builders who not only did the organising but put in many hours working on the job.

In late 2012 Mark along with many other people such as the Rotary Club of Litchfield/Palmerston, Bendigo Bank (Coolalinga), NT Government, Litchfield Council and Inpex became involved. The results of Mark’s and the community’s two years hard work have culminated in a first class track, of a design unique to the Territory, which already many children have been using over the school holidays.

Gerry says the track will be opened by the young people who originally came to see the local member asking for a track. That was back in 2006 so even though for the first few years the project floundered it eventually picked up momentum when Mark Brustolin stepped in.

Opening details
Time 12 noon
Date 26th Jan
Howard Reserve
Whitewood Road, Howard Springs Road, Howard Springs (next to the Howard Springs School)
Cessi foro gallinarum sed surgo
