Newcastle, Kings Cross - Darwin?

Gerry Wood Independent Member for Nelson says the changes to lock out times in Kings Cross have once again shown these changes can make a huge difference to alcohol fuelled violence and anti-social behaviour.

He says these changes are supported by the NSW police and the medical profession especially those on the front line.

Gerry says with the NT Police Association and the NT Medical profession also supporting similar changes in the Darwin CBD it's about time our Government bit the bullet and did something positive and change the lock out laws for licensed premises.
