Happy World Teachers’ Day!

Celebrating World Teachers’ Day today Shadow Education Minister, Nicole Manison said that the Territory has dedicated, passionate teachers working to support our students.

"We have fantastic teachers right across the Territory working hard in the classroom to support our students,” Ms Manison said.

"Today we should be thanking our dedicated teachers for their contribution to the Territory.

“The hard work and dedication of our teachers should be acknowledged and they deserve our support.

“Sadly, we’ve seen massive cuts to school staff, right across the Territory under the CLP.

“The Minister for Education confirmed earlier this year that 330 staff had been cut from Territory schools.

“With both teaching positions and school staff positions being cut from schools, the results are obvious – more and more pressure on teachers.

“A Territory Labor Government will ensure teachers and schools get the support they need so they need."
