Building a strong future for Darwin

The Northern Territory Government is committed to building a strong sustainable future through job creation and economic development.

This financial year, a record infrastructure budget of \$1.4 billion is being delivered by the Department of Infrastructure to build and improve civil and building infrastructure across the Territory.

Across the Darwin Region, delivery of the Capital Works Program includes \$257 million on road and civil assets and \$402 million on building infrastructure. Major projects that are currently in planning or underway include:

- Royal Darwin Hospital Upgrades, \$70 million
- Tiger Brennan Drive Duplication, \$88 million
- Roystonea Avenue and Temple Terrace Intersection, \$5.2 million
- East Arm Multi User Barge Ramp, \$17 million
- Palmerston and Henbury Special Schools, over \$51 million

Since 1 July 2015, \$96 million has been spent in the Darwin Region through Capital Works, Minor New Works and Repairs and Maintenance programs.

In the region, there are currently 14 tenders advertised with a combined total of over \$15 million, which will help the government provide consistent pipeline of works for small and medium business enterprises.
