Upgrades set for Florence Falls 2WD campground

18 February 2016

As part of the Country Liberals $10.43 million investment into Litchfield National Park, the popular two wheel drive (2WD) campground at Florence Falls is set for an upgrade.

Minister for Parks and Wildlife Bess Price said she was pleased the tender for these exciting upgrades was being advertised today and was looking forward to the finished project.

“I’m confident that our government is on track to prepare our Parks and Wildlife areas for the increased level of activity and the employment outcomes are positive,” she said.

“Developing the north means many more people will be exposed to the beauty of this country and a better understanding of our wildlife.”

The redesign of the 2WD campground includes:

- Increasing the number of campsites.
- Replacement of toilet with an ablution block with toilets, showers and disabled access
- Sealing of the access road

Litchfield National Park is one of the Territory’s most popular tourist attractions and it plays a key role in supporting, building and enhancing the Territory’s tourism industry and the Territory’s reputation as a must see destination.

Almost 330,000 people visited Litchfield National Park in and existing attractions, facilities and infrastructure are struggling to meet increased demand due to its rising popularity.

Once works commence access to some of the facilities may be restricted for safety reasons until construction is complete. However, visitor disruption will be kept to a minimum where possible. Details of any proposed closure dates will be advertised as soon as possible after award of contracts.
