Territory Parliament today passed a bipartisan motion of condolence following the tragic Bali bombings.

The motion was:

The Assembly of the Northern Territory Parliament condemns the appalling and indiscriminate bombings, which occurred in Bali on 12 October 2002.

The Assembly extends its support and sympathy to the families, loved ones and friends of the Territorians and other Australians killed, missing or injured in the attack.

We offer our condolences to the family and friends of the Indonesians and people of other countries who have been killed or injured.

Our sympathy goes to the people of Indonesia and in particular the Balinese during this tragic time.

We support and commend the prompt and effective action of the Australian Defence Force and Northern Territory Government agencies following this tragedy, including the Emergency Operations Centre, Royal Darwin Hospital and our Police, Ambulance and transport services.

We commend the willingness of many individuals and community groups in the Territory to volunteer to assist in the relief effort.

And we endorse the offer for the Northern Territory Police and for other Australian law enforcement bodies to assist in any way possible to bring the perpetrators of this outrageous crime against humanity to justice.
