WHY NOT SHARE?

Gerry Wood, the Independent Member for Nelson, says a possible solution to the debate over the Palmerston Transfer Station may be for Palmerston to talk to Litchfield Shire and look at the possibility of sharing the Howard Springs Transfer Station.

The Howard Springs Transfer Station is just outside Palmerston and is easily accessible by Lambrick Avenue. If Palmerston was willing to share running costs and perhaps assist in upgrading the facility to cater for the extra rubbish then that may solve the problem.

It would also be good opportunity for councils to work together and share resources for the benefit of the wider community.
