Vo113, ice Springs can't have noticed at least one member of the Ford family at least nine sports tillily - the eight members between them!

Krystal (21) and Tui Baden (15), Lauren (17), mother, Sandra, and father, Manui (8), Teniwa (12), and also plays league for the Rockets team. Tui Junior is currently playing for the Wests team and Manui was captain of basketball for the NT state team for three years under 14 and under 16 groups.

Brother Baden also attends school with her in Hamilton, while he too represented the Alice Springs for rugby union while he was playing in the Sydney subdistricts competition for Marrarriale.

And Teniwa has recently returned from the Pacific School Games where she represented the state in basketball, playing point guard. "It keeps the kids active and away from trouble," says Sandra. "They're never idle.

And Tui has fair play has brought the family a long way - Tui Junior was voted best and fairest last season for rugby union while he was playing in the Sydney subdistricts competition for Marrarriale.

He was invited to trial for the North Queensland Cowboys professional team in 2002 but chose instead to complete a two-year Chris terniwa. Having represented the NT as a junior, would be like to make a career of the game. "I'll go back to New Zealand for uni and then see what happens," he says.

Lauren currently attends boarding school in New Zealand but when she was 15 she was the youngest girl ever to play in the local A grade basketball competition. Lauren was offered an NTIS scholarship for netball in Darwin but chose to stay with her family in Alice Springs. She was captain of basketball in the NT state team for three years for the under 14 and under 16 groups.

Brother Baden also attends school with her in Hamilton, while he too represented the Alice Springs for rugby union while he was playing in the Sydney subdistricts competition for Marrarriale.

The family also finds time to play softball and gymnastics. "It keeps the kids active and away from trouble," says Sandra. "They're never idle.

But both Tui and Sandra believe that sport is more than simply about winning. "It's about the attitude, the spirit. It's a real family place," Sandra says. Family is incredibly important to the Fords, as well as their Christian faith as Mormons. Because of their beliefs, they refrain from playing sport on Sundays - something which must require immense discipline considering how much they love it.

"Even though there's a lot of sport on Sundays, it's not a barrier," says Tui. "The coaches have always been real thoughtful towards us."

He says that their beliefs are an important part of the family's sporting success and enjoyment: "We don't drink or smoke which helps us run around a bit longer. You can see that we all have a lot of fun - it helps with fair play in sport and life," he laughs.
Dance of the darkness

Enjoying a show at Alice Springs, she became aware of the Red Springs "It was an experience of a lifetime..."

"...it's a maximum of ayscholarships or drop into CDU's Springs."

The men and their machines

T&D Small Animal Transport takes the safety of your animals very seriously. Since it began 12 years ago at the inception of the company, T&D has consistently upheld the highest standards of care for all animals, ensuring they are provided with the best possible environment and treatment. T&D is committed to providing a safe and comfortable journey for both the men and their machines.

For all your container handling needs and general freight requirements, contact Graham's Bobcat & Tipper Hire at 0419 832 696 or Alice Plaza Shopping Centre. Graham has worked at all types and for both big and small businesses, in both rural and urban areas.

Upgrade

Last year, Graham was able to upgrade and buy a new Bobcat and Tipper. The new Bobcat comes with new rubber tyres, which provide a smoother ride and better handling. Graham's Bobcat & Tipper Hire is now able to undertake the transport of larger scope.

Pet passengers

For 25 years, Graham has worked on farms and owned a number of animals, including dogs, cats, rabbits, and chickens. He has been able to provide a comfortable and safe journey for his pets, ensuring they arrive at their destination safely.

A substantial upgrade of the 1<2700 light truck has been introduced by Kia. The new model retains the mechanicals from the Pregio van, but offers improved aerodynamics, reduced NVH, greater interior space and a lower ex-factory tray for easier loading.

By being built on a full chassis, the 1<2700 is a simple case for a $3300 major re-style. The interior is not only more presentable, but also more functional and comfortable. The instrument cluster with its digital speedo and tachometer is much easier to read than the previous analog gauges. The headlight cluster with its quadruple round lenses has been replaced with a more modern design.

The new KIA K2700 has a much more aerodynamic shape than the previous model, reducing the resistance of the air. This is achieved by a new front bumper, a new grille, and a new lower skirt. The front fenders have been redesigned to create a smoother line from the front bumper to the hood. The hood itself is more streamlined, and the side mirrors have been relocated to the doors.

The new model is also much more comfortable to drive. The interior is now more spacious, with more legroom for the passengers. The seats are more comfortable and the overall view from the driver's seat is much better.

The new KIA K2700 is a significant improvement over the previous model, offering a more modern, more comfortable and more efficient package. It is a great choice for those looking for a reliable, comfortable and economical light truck.
