**SADDLE CREEK CROSSING - UPGRADE**

This work is part of the Australian Government’s Northern Territory Road Package, works have commenced at Saddle Creek, approximately 400km west of Katherine.

Construction of two new high level bridges will improve flood immunity at the existing crossing and reduce the time of the annual road closure during wet weather events.

Motorists are urged to travel with care in the area and adhere to all traffic management. A temporary detour will be in place, with project completion expected in January 2016.

For more information, please contact Department of Infrastructure’s Project Manager Civil - Katherine, Rajan Humagai on 8973 8527 or by email rajan.humagai@nt.gov.au

**LITCHFIELD SUBREGIONAL LAND USE PLAN**

Discussion paper for consultation

The Planning Commission will have released a subregional land use plan for the Litchfield municipality and has released a discussion paper for upfront comment and feedback, before drafting the plan.

The discussion paper provides information about the Litchfield area and will assist you in providing input into the development of the draft subregional land use plan.
