Kick the carbon habit and reduce emissions contributing to climate change.

“We can all make a significant difference to climate change by making simple day to day choices,” said Mr Kiely.

“It might be as easy as turning off a light when you leave the room, riding a bike or walking instead of taking the car, there are many choices we can make every day which reduce carbon emissions.

“We’re privileged to live in one of the best parts of the world, with a pristine environment and incredible beauty but we all have a responsibility to protect our environment.

“As a Government we’re committed to protecting our environment which is such an important part of our great outdoor lifestyle.

“Budget 2008 commits $11 million to tackling climate change and we will be developing a new strategy to ensure the Territory makes a difference and reduces carbon emissions.

“I encourage families, individuals and businesses to find ways to reduce carbon emissions.

“So start today and kick your carbon habit through simple choices.

“We can all make a difference to climate change.”
