WHAT ABOUT LAND IN THE RURAL AREA?

Gerry Wood, the Independent Member for Nelson, says the Government should accelerate more land releases by opening up land in the Howard Springs Forestry area.

Gerry says a number of developers had put forward plans earlier this year to open up the land (1ha and 2ha) for first home buyers but nothing has happened from the Governments end.

Gerry says rural blocks (1ha to 2Ha) would be very popular and provide an alternative to the expensive mini blocks in the suburbs and they would be a lot quicker to develop than the Bellamack blocks which have been released.

Gerry says the Government is more concerned about the market and less about young people trying to get a start in life.
