Chandler Wrong… Again.

Minister for the Environment, Karl Hampton, said that the CLP’s Peter Chandler has again been caught out peddling incorrect information about the Territory’s Cash for Containers scheme that he wants to dismantle.

“Peter Chandler claims that there is only one depot remaining open in Darwin,” Mr Hampton said.

“That is completely incorrect. Depots in Winnellie, Berrimah and Pinelands remain open and are receiving large volumes of containers.

“The biggest threat to the investment made by collection depots is Peter Chandlers commitment to unwind the scheme.

“Peter Chandler needs to stop deceiving Territorians that he has a better cash for container scheme when he doesn’t.

“The scheme Peter Chandler favours would result in the following:

- You would not get 10 cents back
- No new collection depots established
- Add a few lousy bins on the street – an eyesore at best.

“It’s a beverage industry con job and he knows it.

“Government remains absolutely committed to making cash for containers work, it is delivering jobs, it is delivering a cleaner environment and we won’t see it fail.
