Country Liberal Party
Election 2005
Commercial Seafood Industry – A Secure Future

Executive Summary

The Commercial Seafood sector is an important component of the Northern Territory economy. It has faced many challenges in the past and will continue to face challenges in the future. The Country Liberal Party is determined to ensure that the commercial seafood industry has a secure future and remains economically and environmentally viable.

Our policy, Commercial Seafood Industry – A Secure Future, delivers a range of initiatives designed to ensure security to commercial operators and to consumers, enabling all to continue from the benefits and enjoyment of wild-caught products.

The Country Liberal Party in government will take the initiative in committing to a long-term business plan for the seafood industry, providing incentives for better servicing, identification and marketing of the industry, training for the industry’s future and reducing government costs to the industry.
